Richard Zacher says he believes that it was wrongly defined, however the town already ruled the violation. Mr. Compton inquired if now the only way to make changes would be through litigation. Mr. Gauthier stated that Mr. Compton raised valid concerns, and one way to make sure mistakes are not repeated is to form significant, strong, and reliable zoning ordinances for solar. The selectmen reiterated that it was already ruled on. Mr. Compton said that Mr. Campbell should have to move it to the setback in compliance with the structure part of the zoning ordinances.
- Ed Comeau stated that the abutters should be brought out to see where the new location of the panel will be. Mr. Compton informed several people that the panel had already been moved.
